AWIS WOOL MARKET REVIEW

Week Ending 2 July 2021 (Week 53)

The Market ended its run of six weeks of successive rises when the AWEX EMI finished at 1423¢, 45¢ lower (-3.1%) in Australian currency and 38¢ lower (-3.4%) in US currency at sales in Sydney, Melbourne and Fremantle in Week 53.

Much of the fall was attributed to an increase in the expected size of the offering in Week 01 of next season to 54,900 bales. 42,847 bales were on offer nationally, compared with 33,330 bales last sale. There was strong Seller resistance to the fall in the market when 21.6% of the offering was passed-in after 3.3% of the potential offering had been withdrawn prior to sale. 33,582 bales were sold, 1,900 more than in Week 52.

AWEX reports that the value of the wool sold was \$57.7 million (\$1,718 per bale), taking the season total to \$2.219 billion (\$1,417 per bale). The number of bales sold at auction this season was 29.3% greater than in 2019/20.

There were falls across all Fibre Diameter ranges and types, with Crossbreds less affected than the Merinos; and the Merinos least affected at the fine end. The average AWEX MPG for 16.5 microns continued to be over 1000¢ greater than at the start of the season.

The US Exchange Rate finished 0.27¢ (-0.4%) lower to close at 75.18¢ on Wednesday.

In the usual pattern, buyers for China were dominant, with support from buyers for Europe and India.

Export data for May on the next page shows China's continued dominance, but that there has also been some recovery in exports to other countries.

Looking ahead, offerings for the first two sales of next season are currently expected to be 54,982 bales and 43,142 bales, respectively; and to be 48.5% more than in the first two sales of 2020/21.

In other countries, sales in South Africa are in recess.

The following Tables do not include a comparison with the "Same Week Last Year" as there was no Sale in Week 53 last year.
