Wool exporters were not sure what to expect when sales opened on Wednesday, given the uncertainty associated with the coronavirus outbreak. It was a good result for sellers when the EMI moved up by a total of 29¢ over both days. However, this was not enough to prevent relatively high Withdrawn and Passed-In Rates on both days.

There were gains in the AWEX Micron Price Guides (MPGs) across all micron ranges, with the greatest gains at the fine end of the Merinos. Crossbreds had a better week than the previous one, but were still behind the Merinos. All types finished the sale on a positive note.

The US Exchange Rate finished $0.21 \notin (0.3\%)$ higher to close at 67.60¢ on Thursday.

Buyers for China were dominant, with support from buyers for Europe and India

In other countries, the South African Cape Wools Indicator was up by 1.6% since last week against a 0.8% depreciation of the Rand against the US Dollar and a 0.6% depreciation against the Euro.

Looking ahead, offerings for the coming three sales are expected to range from 36,381 bales to 42,932 bales and to be 9.5% less than in the same period last year. The forecast progressive difference to Week 35 is -10.8%.
