AWIS WOOL MARKET REVIEW

Week Ending 8 October 2021 (Week 14)

The AWEX EMI steadied after last week's 31¢ fall in the EMI that was associated with the disruptions to energy supplies in China. This led to an outcome where this week's EMI finished 2¢ higher (+0.1%) in Australian currency and 12¢ higher (+1.2%) in US currency at sales in Sydney, Melbourne and Fremantle.

35,844 bales were on offer nationally, compared with 39,757 bales last sale. 10.8% of the offering was passed in after 6.2% of the potential offering was withdrawn prior to sale. 31,964 bales were sold.

AWEX reported that the value of the wool sold was \$54.4 million (\$1,702 per bale), taking the season total to \$555.3 million (\$1,596 per bale). The number of bales sold at auction this season is now 26.6% greater than in 2020/21.

The New Zealand Merino Company also offered 1,503 bales in Melbourne on Thursday, of which 7.5% were passed in.

There were gains in all average AWEX Merino MPGs, with the greatest gains at the fine end (apart from at 16.5 microns), while the crossbred average MPGs were all down by small amounts.

The US Exchange Rate finished 0.75¢ (1.0%) higher to close at 72.81¢ on Thursday.

In the usual pattern, buyers for China were dominant.

The most recent data from the Australian Bureau of Statistics (ABS) showed that India, Italy and the Czech Republic continued as the most important destination countries after China during August and July. Each experienced large year-to-year increases in their imports from Australia during this period.

Looking ahead, offerings for the coming three sales are expected to range from 38,787 bales to 42,755 bales and to be 38.9% more than in the same period last year. The forecast progressive difference to Week 17 is +33.6%, continuing the pattern seen since the start of the year.
